

Tray Filler Special

mayer
PLANTING SYSTEMS

Technical data:

Brand:	Mayer
Machinery model:	Tray filler
Series:	KF Spezial
Length/ Width/ Height:	2350 / 1900/ 2000 mm
Weight:	560 kg
Power connection:	400V/ 50Hz, 3-phases
Capacity of soil hopper:	600 l
Production speed:	up to 600 trays / hour
Accessories:	Vibrator for tray conveyor belt Soil hopper extension 1,5 m ³

Description:

Modular machine, consisting of:

Soil conveying module:

- Soil hopper approx. 600 l, with adjustable rubber conveyor belt (free-wheel)
- Chain elevator with sticked shovels, fix speed with forward and reverse drive
- Elevator easy to maintain with detachable front panel

Tray filling module special:

- Tray/flat feed conveyor with mechanical speed control
- Naps on surface of conveyor belt for optimum feed of trays
- Electronic control system for constant soil supply
- Adjustable distribution rotor for homogenous filling up tray's brim
- Brush off device with feedback of soil into soil hopper
- Vibrator, frequency controlled, for compacting the soil (optional)
- Electronic control box

**Thanks to an extensive assortment of accessories we are able to offer
you customised solutions for special purposes.**
